

# PI System: The Inside Secret for IoT in **LIFE SCIENCES**

**DATA IS YOUR MOST VALUABLE ASSET: START USING IT**

OSIsoft's PI System™ gives pharmaceutical developers real-time insight into operations to improve quality and consistency, reduce costs and transform your business.

## **SUPPLY CHAIN**

### **Eli Lilly**

Managing contract manufacturers through a unified data infrastructure.

[LEARN MORE](#)

## **R&D**

### **Shire**

Enabling any scientist to analyze experiments in under 10 minutes.

[LEARN MORE](#)

## **BATCH RECORD REVIEW**

### **Sanofi Genzyme**

Eliminated 12,000+ hours manual review time.

[LEARN MORE](#)

## **HUMAN CLINICAL TRIALS**

### **Parexel**

Data management for patient wearables.

[LEARN MORE](#)

## **RENEWABLES**

### **Baxalta**

8M Euro plant upgrade replaced with 1.2M Euro solar plant.

[LEARN MORE](#)

## **MANUFACTURING**

### **Novartis**

Real time insight and a 17% reduction in equipment cost.

“

This is a system that is not only **bulletproof**, it will help you **achieve the targets** for your strategic initiatives.

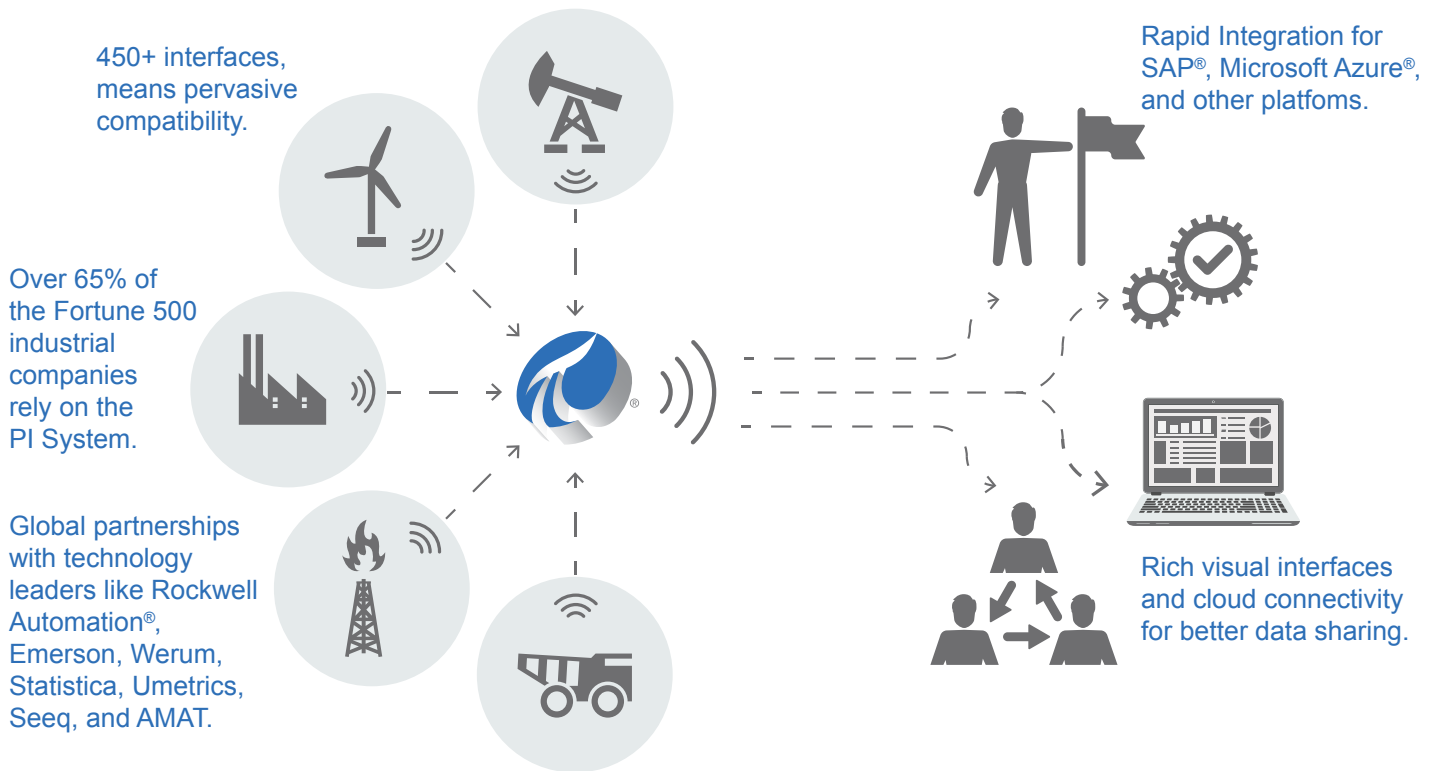

— Brian Schlitz, Abbott Laboratories

# PI System: **TRANSFORM** YOUR **WORLD** **THROUGH DATA**

The PI System captures data from sensors, manufacturing equipment and other devices and transforms it into rich, real-time insights that scientists, engineers, MS&T, Quality, executives, and partners can use to reduce costs, dramatically improve overall productivity, and create new connected services, and smart devices.

**23 OF THE TOP 25**  
PHARMACEUTICAL COMPANIES  
RELY ON THE PI SYSTEM
